

WATER IMPROVEMENT
PROJECTS DISCUSSED

Matter Is Taken Up in Executive Session by City Commission

COST IS NEAR \$1,000,000
Permission to Increase Bonded Indebtedness of the City Is Needed

Water improvement projects, valued close to \$1,000,000, were taken up for consideration by the city commissioners in executive session yesterday. Members of the city engineering staff submitted rough estimates of the projects and the commissioners spent an hour or more figuring on ways and means of undertaking the

present bonding limits of the city. In case the legislature grants the power to increase its bonding limit from 8 to 12 per cent, thereby making possible an additional loan issue of \$3,500,000 for water purposes, the projects and others more comprehensive will be made part of a single plan to provide the city with a water supply ample to the future growth of the city.

at the lakes near Brighton at the base of Big Cottonwood canyon, a reservoir in Parley's canyon to impound a million gallons of water.

duit encircling the reservoir. A high line has been laid out along the shore of the reservoir and benches from this reservoir will be dug to relieve the congestion of the water in Parley's creek conduit, instead of the pumping plant at the Liberty. The flowing wells and a great reservoir will be the cause of the water. According to the preliminary estimates, the cost of the project department, these improvements will cost a total of \$855,000 at least. The present bonding capacity of the water over and above bonds already issued is \$680,000. The reservoir is to be built by canyon, plans for which were made by the late Gen. L. C. Kaiser, city engineer in 1903, is estimated at \$370,000. The conduit from this reservoir would cost \$250,000; the Brighton branch

Favored by Korn.
W. H. Korn, commissioner of supply, declared himself in favor of undertaking as much of this im-

ment work as could be handled via \$500,000 bond issue. He referred the recommendations of the bond fire underwriters, which recently completed a thorough investigation of the city's water supply, and urged that the general provisions of the fire underwriters' suggestions be put into operation as soon as possible.

The commission went over the various plans in detail yesterday, while it was agreed to take immediate steps to launch a great water pur-

**SUICIDE ATTEMPTED
BY DESPONDENT MAN**

Chloroform poured over his head failed to waltz Maubart into the land of nod sleep that was to have ended his troubles, and he woke at 10 o'clock yesterday morning to find that his face had been miserably burned by the drug.

ANOTHER ROOMING
HOUSE FILES SUIT

G. C. Hoffman, proprietor of a rooming house at 28 West Third South, whose license was denied by the commission, yesterday joined the association of rooming house keepers who are

ing in the courts the city's attorneys regulate their business. His suit for injunction against the city, the common lawers and the chief of police was in the district court. He denies the right of the city to pass the rooming house ordinance and alleges that he has been denied without a proper hearing.

A temporary restraining order was issued by Judge T. D. Lewis some

Youth Dies of Injuries
Douglas H. Reid, 18 years of age, died at a local hospital yesterday as the result of injuries suffered at Thatchers, Utah, last Wednesday, where he was employed by the Utah Construction Co.

company. The body was
